

National Day of Action Toolkit: December 8th, 2021

Comunidades Unidas is calling on our community members to participate in a call to action to push our senators to create a real pathway to citizenship this year by submitting letters, emails, posting on social media, creating Facebook, Instagram posts and retweeting with us.

Why?

On November 19, 2021 the U.S. House of Representatives passed the Build Back Better Plan which includes plans to tackle climate change, anti-poverty programs, health care, and more but falls short when it comes to immigration reform since it does not include a pathway to citizenship for the 11 million undocumented immigrants who have built their lives in this country. This is not a permanent solution but a “band-aid” since it fails to create a pathway to citizenship for the nearly 7.1 million people who could qualify for it. **There is still an opportunity for our community to create change and apply pressure to our elected officials to complete what they promised. The fight is still not over!**

National Day of Action Toolkit: December 8th, 2021

Who do we need to apply pressure to?

The following senators are elected officials who promised to help support and deliver a pathway to citizenship for 11 million immigrants or who have failed to show support for undocumented families living in their region!

Senator Lee, Utah

Subject: Support a Pathway to Citizenship!

Dear _____,

My name is [YOUR NAME] and I am your constituent in Utah, my zipcode is [ZIP CODE].

I am writing to you today to urge you to show support for undocumented community members and act on the movement of including a real pathway to citizenship for the 11 million undocumented folks living in the United States in the Build Back Better Plan.

As you already know, The House of Representatives passed the Build Back Better Plan which among many things includes a provision to create a Parole program to provide some protections for approximately 7.1 million undocumented folks across the country. However, now more than ever Utah's families need a permanent solution that will ensure that they can prosper in the state they call home. I don't want a temporary "band-aid" solution. Utah's families cannot continue to be separated. We need citizenship now.

Add a paragraph or two that could include the following:

- why the including a pathway to citizenship is important to you personally

I urge you to strike down any anti immigrant amendments that could be included to Parole in the Senate and support a solution that includes a pathway to citizenship to ensure that families no longer have to live in fear of deportation. Thank you for your attention to this serious matter.

Respectfully,
